## Contributors

**David S. Blitzstein** is Director of the United Food and Commercial Workers International Union (UFCW) Negotiated Benefits, where he advises local unions in collective bargaining on pension and health insurance issues and consults with the union's 150 jointly trustee health and welfare and pension plans nationwide. He is also a trustee of the \$3.5 billion UFCW Industry Pension Fund and the UFCW National Health and Welfare Fund. He represents the UFCW as a member of the working committee of the National Coordinating Committee for Multiemployer Plans and serves as a board member of the Pension Research Council of the Wharton School. He is a graduate of the University of Pennsylvania and holds an M.S. in labor studies from the University of Massachusetts at Amherst.

**Carl T. Camden** is Executive Vice President of Kelly Services, Inc., where he oversees planning, development, and execution of the company's marketing strategy and marketing business plan. He is also responsible for the company's government and public affairs positions and manages customer relations with corporate accounts. He has served on the Advisory Committee on Employee Welfare and Pension Benefits and the Chicago Federal Reserve's Labor Advisory Committee. He received a Ph.D. in communications from Ohio State University.

**Peter Cappelli** is George W. Taylor Professor of Management and Director of the Center for Human Resources at the Wharton School of the University of Pennsylvania. He is also a research associate at the NBER and codirector of the U.S. Department of Education National Center on the Educational Quality of the Workforce at the University of Pennsylvania. His research examines human resources, compensation issues, labor economics, and union-management relations. He received a B.S. from Cornell University and a D.Phil. from Oxford University.

**Irena Dushi** is research associate at the International Longevity Center. Her research interests are in the field of aging and labor economics. She has taught at Hunter College and visited the Institute of Advanced Studies in

**286 Contributors**

Vienna; she was also an exchange fellow at the City University of New York. She earned a Ph.D. in economics from the Center for Economic Research and Graduate Education in Prague.

**Erica L. Dykes** is an undergraduate at Harvard University.

**William E. Even** is Professor of Economics in the Richard T. Farmer School of Business Administration at Miami University of Ohio. His research focuses on pension economics, gender differences in labor market outcomes, and the consequences of minimum wage legislation. He earned a B.S. degree in Mathematics and Economics from the University of South Dakota and a Ph.D. in economics from the University of Iowa.

**Teresa Ghilarducci** is Associate Professor of Economics at the University of Notre Dame, where she directs the Monsignor Higgins Labor Research Center, a multidisciplinary center focusing on the living standards of workers. Her interests include retirement income security. She has previously visited the Mary Ingraham Bunting Institute at Radcliffe College and served on the Pension Benefit Guaranty Corporation's Advisory Board and the Board of Trustees of the State of Indiana Public Employees Pension Fund. She received a Ph.D. in economics from the University of California at Berkeley.

**Michael S. Gordon** is a Washington, D.C., attorney specializing in employee benefits law. He served as Minority Pension Counsel to the U.S. Senate Labor and Public Welfare Committee under Senator Jacob K. Javits, during which time he participated in the drafting of ERISA. He also advised President Kennedy's cabinet on corporate pension funds, served on the U.S. Department of Labor Advisory Council on Employee Welfare & Pension Benefit Plans, and chaired the Advisory Board to the Bureau of National Affairs Pension & Benefits Reporter. He has taught as Adjunct Professor of Law at Georgetown University Law School. He is currently Chairman of the Board of Directors of the Pension Rights Center of Washington, D.C., and a Board member of the Pension Research Council of the Wharton School. He received a B.S. from the University of Chicago and a law degree from the University of Chicago Law School.

**Marjorie Honig** is Professor of Economics at Hunter College and the Graduate School of CUNY. Her research interests focus on issues related to the economics of aging, with emphasis on individual retirement decisions and the roles of social security and employer pensions. Her current investigations examine workers' expectations regarding retirement income and the timing of retirement. She is a member of the Advisory Board for the Brookdale Foundation National Fellowship Program and is an advisor to the International Longevity Center of the Mount Sinai Medical Center. She received a Ph.D. in economics from Columbia University.

**Susan N. Houseman** is a Senior Economist at the W.E. Upjohn Institute for Employment Research. Previously she was on the faculty at the University of Maryland's School of Public Affairs and a visiting scholar at the

Brookings Institution. Her research interests focus on labor issues in the United States, Japan, and Europe, and her current work studies workers in nonstandard employment arrangements. She received a Ph.D. in economics from Harvard University.

**Sanford M. Jacoby** is a Professor of Economics in UCLA's Anderson School of Management and in the School of Public Policy & Social Research. He is also associate director of UCLA's Institute of Industrial Relations. His research interests focus on welfare capitalism and twentieth-century management and advertising. Dr. Jacoby received a Ph.D. from the University of California at Berkeley.

**Eric P. Lofgren** is global director of the Benefits Consulting Group at Watson Wyatt Worldwide, encompassing the Retirement, Group & Health Care, and Investment consulting practices. He is a member of Watson Wyatt's Board of Directors, where he currently serves on the Executive Committee and the Management Committee. He is a Fellow of the Society of Actuaries, a Fellow of the Conference of Consulting Actuaries, and an enrolled Actuary under ERISA. He holds a B.A. in mathematics from New College in Sarasota, Florida.

**David A. Macpherson** is Abba Lerner Professor of Economics at Florida State University. His specialty is applied labor economics. His research interests include pensions, discrimination, industry deregulation, labor unions, and the minimum wage. He received a Ph.D. in economics from Pennsylvania State University.

**Judith F. Mazo** is Senior Vice President and Director of Research for the Segal Company, responsible for research regarding public policy, legislative, and regulatory issues. She is active in the employee benefits field, serving on the Board of the Pension Research Council of the Wharton School, as well as the Editorial Advisory Boards of the *BNA Pension Reporter* and the *Benefits Law Journal*. Previously she served on the U.S. Department of Labor's ERISA Advisory Council. She is active in the American Bar Association, where she has chaired the Joint Committee on Employee Benefits. She received a B.S. from Wellesley College and a law degree from Yale Law School. She has been admitted to the bar in the District of Columbia and the State of Louisiana.

**Olivia S. Mitchell** is the International Foundation of Employee Benefits Professor of Insurance and Risk Management, and Executive Director of the Pension Research Council at the Wharton School of the University of Pennsylvania. She is also a Research Associate at the NBER and serves on the Steering Committee for the Health and Retirement Survey for the University of Michigan. Dr. Mitchell's research focuses on private and social insurance, employee benefits, and pensions in the United States and overseas. Dr. Mitchell previously taught at Cornell University, and she has visited the faculties of Harvard University and the University of New South Wales in Sydney, Australia. She received a B.A. from Harvard

**288 Contributors**

University and a Ph.D. in economics from the University of Wisconsin at Madison.

**Steven A. Nyce** is a Senior Retirement Research Associate with the Research and Information Center of Watson Wyatt Worldwide in Washington, D.C. His research interests include workforce demographics, behavioral aspects of private pensions, and public and private retirement policy. He received a Ph.D. in economics from the University of Notre Dame.

**Anna M. Rappaport**, F.S.A, is an actuary and futurist and Principal with Mercer Human Resource Consulting, a global human resources, compensation, and employee benefits consulting firm. She specializes in retirement benefit strategy working with larger employers and pension plan sponsors. She is concerned about our aging society and the status of women and is active in the social security debate. Her major focus is on how women are affected by social security benefits and reform. She is a past president of the Society of Actuaries and currently serves on the boards of the Actuarial Foundation, the Metropolitan Chicago Information Center, the Pension Research Council, and the Women's Institute for a Secure Retirement (WISER).

**Martha Farnsworth Riche** is a consultant on demographic changes and their effects on policies, programs, and products. She is also a Fellow of the American Statistical Association. Previously she served as Director of the U.S. Census Bureau, and she also worked at the U.S. Bureau of Labor Statistics. She was a founding editor of *American Demographics*, and worked as Director of Policy Studies for the Population Reference Bureau, a nonprofit organization devoted to educating the public about the demographic component of policy issues.

**Manish Sabharwal** is Managing Director and CEO of India Life Pension Services. India Life offers Asset Management and Web-enabled benefits administration for the Indian market and operates dedicated centers for offshore processing of pensions, benefits, and payroll for Fortune 500 companies. He received an M.B.A. from the Wharton School of the University of Pennsylvania.

**Sylvester J. Schieber** is Director of Research and Information at Watson Wyatt Worldwide. Dr. Schieber has published widely on demographics and the provision of retirement security, as well as public and private retirement and health benefit programs. Dr. Schieber serves on the Board of the Pension Research Council of the Wharton School and sits on the Social Security Advisory Board. Previously he was research director at the Employee Benefit Research Institute and deputy director at the Office of Policy Analysis of the Social Security Administration. He was also a member of the 1994–96 Social Security Advisory Council. He received a Ph.D. in economics from the University of Notre Dame.

## The Pension Research Council

The Pension Research Council of the Wharton School at the University of Pennsylvania is an organization committed to generating debate on key policy issues affecting pensions and other employee benefits. The Council sponsors interdisciplinary research on the entire range of private and social retirement security and related benefit plans in the United States and around the world. It seeks to broaden understanding of these complex arrangements through basic research into their economic, social, legal, actuarial, and financial foundations. Members of the Advisory Board of the Council, appointed by the Dean of the Wharton School, are leaders in the employee benefits field, and they recognize the essential role of social security and other public sector income maintenance programs while sharing a desire to strengthen private sector approaches to economic security.

### Executive Director

Olivia S. Mitchell, *International Foundation of Employee Benefit Plans Professor*, Department of Insurance and Risk Management, The Wharton School, University of Pennsylvania, Philadelphia.
